📍 Udhna, Surat, Gujarat

EXPERIENCE

MERN Stack Developer – Costa Technolab, Surat

Jan 2026 – Present

- Developed full-stack MERN applications using React.js, Node.js, Express, and MongoDB
- Built scalable REST APIs for booking systems, shipping workflows, and admin dashboards
- Implemented secure authentication, payments, real-time messaging, and media uploads
- Worked with MySQL, Prisma ORM, Stripe payment, Cloudinary, Socket.IO, and Tailwind CSS

MERN Stack Intern – Omizo Technologies, Surat

Oct 2025 – Jan 2026

- Built and tested scalable REST APIs using Node.js, Express.js, MongoDB, and Postman
- Improved frontend responsiveness and integrated backend APIs efficiently
- Collaborated with the development team on real-world full-stack projects

SKILLS

- Frontend** : HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap
- Backend** : Node.js, Express.js, REST APIs, JWT Authentication, Cloudinary, Stripe
- Database** : MongoDB, MySQL, PostgreSQL, Prisma, Mongoose
- Tools & Platforms** : Git, GitHub, CI/CD, Docker, Render, Vercel, Dokploy, Cursor

PROJECTS

WeRentify – Marketplace & Service Booking Platform *(Professional Project)*

Tech Stack: React.js, Next.js, Node.js, Express.js, MongoDB, Stripe

- Built a scalable full-stack marketplace platform for rentals and service bookings
- Developed REST APIs for listings, bookings, reviews, messaging, and community posts
- Implemented authentication using JWT, Google OAuth, and Cloudinary uploads
- Added real-time messaging, booking reminders, and admin dashboard features

DeltaGPT – AI Chatbot (MERN + OpenAI) *(Personal Project)*

Tech Stack: React.js, Node.js, Express.js, MongoDB, OpenAI API

- Developed a full-stack AI chatbot using the MERN stack and OpenAI API integration
- Implemented JWT authentication and protected chat routes
- Added automated testing with Jest and CI/CD deployment workflows
- Built responsive chat UI with real-time AI responses
- [Github Code](#) | [Live Demo](#)
